PRIMARY EXAMINER**

***Allowable Subject Matter***

1. The following is an examiner's statement of reasons for allowance: Applicants have claimed a composition according to present claim 1. The prior art does not specifically teach the criticality of a degree of branching in the phosphate surfactants as presently claimed. Applicants' argument that this degree of branching results in improved foaming for these surfactants, and this solution to the problem of poor foaming was not recognized by the prior art is found persuasive. Accordingly, the present claims are allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
